Student Responsibility Statement

Incorporated into Amstutz's Report

A portion of the final president's report issued by ex-UAP Arnie Amstutz, veterinarian, is shown below. The report was received by the Institute last week from Amstutz, who is an administrative one which for educational reasons seeks to provide better conditions for student participation in making decisions affecting the students' lives at the Institute.

East Parallels to Receive Most Attention
$130,000 Dorm Improvement Program

Fassett Forecasts Housemaster Plan

While the question of dormitory housemasters continues to hang heavy over the campus, word of further enlightenment was given recently when Dean Fassett stated, "Housemasters are needed, but once the system is set up,..I think that things will fall. If there is a system, a housemaster is..."

The Institute has the responsibility of fulfilling its long term purposes of student conduct. This is a cooperative effort where, with regard to all re-curricular aspects of student life.

More Electives, Ph.D's

Charter Courses 11, 14, XV

Modifications of the curriculums of courses II and XV are planned for next year. Recommendations to the administration have also been made that City Planning, course 11, be replaced by the degree of Ph.D. The City Planning groups in course II would come in the Junior year. The present curriculum should be reduced to that approximately one semester which the students take during the summer with the Institute.

Tuition Raised $200

Scholarships, Loans Will Ease Problems

Tuition will be $1460 per academic year, an increase of $200 over the present $1260, announced acting president Dr. George N. Hatsopoulos concerning the details of this plan. The increase has been made in order to cover the cost of the IBM 704 computer in the Computer Center.

Security Force Asks Cooperation As Spring Threatens Crime Wave

"If students would get in touch with the Security Force as soon as anything happens, it would be a great deal of help," said the Security Force chief Harvey Burstein. He noted five major incidents as they attempted to matze a get-away plan.

Thermo-Electron Engine Converts Atomic Heat Directly to Electricity

In principle, a thermo-electron engine converts atomic heat directly into electricity. The device as now set up could make use of ordinary fuels, atomic heat, and the other is maintained at a "cool" 1000 degrees F. Electrons are boiled off the plate onto the "hot" plate in the engine and through a resistor, and thus produce electric power.

Problems

Because a large lump-sum payment may well be expected, the general wiring itself will have been done so that approximately one million dollars would be reduced so that approximately one million dollars would be available for next year.

The School of Industrial Management (XV) will drop the two options in the present time, the Institute is looking for furniture with architecturally-pleasing design. The East Parallels are presently using the oldest furniture in the school, dating back over thirty years to the time when the dorms were built. While the furniture has retained much of its original strength, it was realized that the upper floor would be set up on the basis of individual insurance costs, will still be illegal when the plan is forecasted for the other East Parallel dorms.

Parallels to

Three Blocs

North, South, West

Rather, says Struijk, we need a world federation. In a talk at Baker Campus today, Prof. Struijk described the world as split into three blocs: the capitalist, or as he describes it, "what he travels to all countries, flits about the world, engages the minority of his time in thought, and the majority of his time in action."

While three rooms are to be refurnished at weekly intervals, the rest of the East Parallel dorms will receive all new desk chairs and Bakers, for instance, is a college where students have to be constantly reminded to keep the dormitory features and all the privacies are secret.
