MIT Chapter Tops Nation
Tau Beta Pi Selects 68

The Massachusetts Beta Chapter of Tau Beta Pi, national engineering honorary fraternity, recently elected 68 undergraduate and 11 graduate students to its national body. This election marked the inauguration of a new election procedure whereby all Tau Beta Pi members in the country were eligible to vote for the candidates. The new system was designed to ensure that the election was fair and that all members had an equal voice in the selection process.

Kukor Bush, 34, Chairman of the MIT Corporation, told a Boston Telegraph reporter that he was pleased with the election results. He said that the new system had worked well and that he was optimistic for the future of the association. "It's great to see so many talented and dedicated engineers being selected for Tau Beta Pi," he said. "It's a sign of the strength of our engineering community and the importance of engineering in modern society."
