CREWS ON CHARLES TOMORROW

Tomorrow afternoon the rippling waters of the Charles River will be the battleground for all of the MIT crews, as the lightweight crews are scheduled to race Harvard and Vassar, and the men's varsity lightweight crew will race Yale, Columbia, and Hamilton. In the morning, the Lightweight men will have an informal meeting with the Harvard Lightweight crew, which is coming to MIT for a week-long visit. This race looks to be a three-way battle with the Ann Arbor eight raising expectations for MIT's performance.

Scheduled for four o'clock in the Varisty Lightweight race, MIT's Lightweight men will be represented by a team captain and coxswain Al Philppe '58 and are hoping to improve over their previous showing against Harvard, although a strong current helped the currents.

The Athletic Association's objective to the recently approved Beaver Key Field Day has been summed up by Paul Ekberg, '58, AA president, as being simply an objective to having.

Ekberg, who cast the only dissenting vote on those of the four points of the field day plan, stated that he felt it impossible that a field day, giving freshmen and sophomore and free cocktails will add to the listening pleasure.
