Frosh Subjected to A Greatly Intensified OrientationProgram
The 940 newly arrived members of the Class of 1962 are being subjected to a complete series of orientation and indoctrination events, and to an intensive program of recreation. All of these services are on a larger scale than ever before, and a portion of the Old Field Day festivities are devoted to them. The orientation program includes a visit to Back Bay State Park, the Sheet Rock Demo, and an inspection of MIT's facilities. The Frosh Orientation Program is designed to acquaint the freshmen with the campus and to help them adjust to college life.

BILLET

The Boston Pwhite replies that the Sigma Nu men were arrested yesterday night after being found guilty of theft and tan dollars apiece. The trials that no one at all time shall be held out.

Field Day Back with New Games After Year Absence from Campus
The MIT freshmen-sophomore Field Day, which last year was a great success, is to be reconvened this year. TheMIT Register of the Day is scheduled for Saturday, May 19th, and will feature a variety of new games and activities, including a baseball game, a track meet, and a dance.

Physics, Revived

A new department of Physics, which has been reappraised since last year, has been established. The new department includes a new course in theoretical physics and a new laboratory in experimental physics.

Bartlett Begins as Housemaster; Aides Include Ex-UAP Armstutz

The six hundred residents of Burton House will be the subject of a new experiment in dormitory living this year. A new housemaster and eight junior tutors, under the direction of Professor Bartlett, will be living among the residents, in the greatest amount of contact possible. Some personal contact will be arranged in a dormitory setting, and the operations of the system are expected to be extended to all the undergraduate dormitories.
