Final Rally Highlights Weekend
Frosh Receive Responsibility

The first closing rally in the history of Froshman orientation here was held at the Tech Union Saturday night in Kresge Auditorium, Sunday, September 22.

Speakers on the program were Joe Verderber ‘60, Director of Froshman Weekend; Registrar Hughes; Dean Fassett; and Jim de Sola ‘59, president of the Freshman Coordinating Committee.

Verderber set the tone of the meet-
ing by emphasizing freshman respons-
ibilities. He mentioned the pride that all MIT students have and the intima-
gate spirit that permeates MIT (as well as the more mundane spirits). He said that the purpose of Froshman Weekend was to relate the student to MIT and to “rendezvous four year’s ex-
périence into four days.”

 Registrar Hughes quoted statistics to prove that the new Froshman class was the best yet. He also casually mentioned that 10% would drop out in the first year, and that probably only 65% would graduate with their class.

According to Dean Fassett, the class of 1962 has another outstanding qual-
ity. They are the first entering class in eight years “to frustrate Fassette.”

The students who received the an-
nually awarded scholarships are:

Peter Leo Ables; New York, N.Y.;
city and regional planning; Israel.

Arthur E. Bogard; Rhinebeck, New
York; mechanical engineering; Mo-
nti, Germany.

M. Michael Briles; Champaign, Ill.;
electrical engineering; Burgan, Nor-
y.

Bernard Brenner; Los Angeles, Calif.;
city planning; Reno, Utah.

Joseph N. Feil; Columbus, Ohio; chem-
ical engineering; high poly-
mer; Max Planck Institute, Munch-
en, Germany.

BRILLAT-SAVARY
La Societe de Brilat-Savary will
convene at the usual place and time
at the River House meetingsuite. All
members are expected to join in this
most fruitful discussion concerning
good taste policies for the coming year.

Fulbrights Awarded
To 17; Newman and Haberstroh Selected

Seventeen Massachusetts Institute of Technology alumni and graduate
students have received Fulbright scholarships to study abroad during the coming year, and MIT professors Robert E. Newman and Dr. Chadwick Haberstroh have been named to partic-
icipate in the International Educational Exchange Program under the Ful-
