Iscomm Considers New Judcom Head; Commuters Regroup

Choosing a new Judicial Committee chairman and reorganizing the Committee is currently one of the most pressing items on the agenda of this year's Board of Directors. Last Monday's Board meeting was held in the basement of Hudson Hall.

The Executive Committee of the Institute of Taxidermy announced Thursday's meeting. Besides the President and the Secretary-Registrar, the meeting was held to discuss the need for a more effective taxidermy system on campus. The President's report included the selection of a student from student government for a position on the executive committee. The report was approved by the Board.

All Campus Parking Spaces Now Tented; 2000 Unsatisfied

Taking place at the Institute is a new project to provide additional parking space. The project will be initiated by the Office of the Registrar and will include the allocation of space to student parking. The project will be supervised by the Association of Undergraduate Students in conjunction with the President of Iscomm.

Professor Seward Bartlett, the new associate head of the Department of Chemistry, has been granted a fixed quota of 900 parking spaces on campus lots. All Campus Parking Associates report that their quotas have been completely filled.

"At this point," Professor Bartlett explained, "we are not concerned with the allocation of additional space. We are trying to meet the demand for parking space as it currently exists."

The purpose of the conference, according to Professor Bartlett, was to establish a meaningful relationship between the committee and the students. The committee was formed to provide a forum for the discussion of parking problems and to ensure that the needs of the students are met.

Fraternity Stewards Discuss Co-op Buying at Endicott House

MIT fraternity leaders were introduced to a proposed co-operative buying system at a program last Saturday at the Inter-Fraternity Committee's Student House. The program was sponsored by the MIT Club of New York, in cooperation with the MIT Fraternity Council.

The program was designed to provide a forum for the discussion of the co-operative buying system and to educate the fraternity leaders about the benefits of the system. The program was well received and was well attended.

The program was well received and was well attended. The fraternities expressed interest in the co-operative buying system and were encouraged to explore the possibility of setting up such a system on their own campus.

Other members of the steering committee are Richard Rands '60, JFC President; Bud Long '59, chairman of the House Managers and Executives Committee; and Larry Bigelow, JFC representative. Another meeting will be scheduled by the Executive Committee of the JFC.
