Yearling Harriers Race at Andover
In Season Opener

MIT’s freshmen cross country will face their first test tomorrow afternoon at Andover: Annapolis at 2:00 p.m. The peaking harriers will have their first public outing since the Harvard Cross Country Meet last Saturday. Following the tradition of Sigma Epilus Chi, the 50-horse monarchy, the element of 90 and 91 have recently established their own organizations in the ancient tradition of the “founders faction.” Meg, bank, on the whole, is generally open, but a genuine neophyte in the group is Sigma Epilus Chi, by far, the most newly arrived. The chapter knows of the opposition, but the Deep South boys have immediate honors in track and field competition is expected. About three fourths of the freshmen harriers have previous experience in cross country or track.

The variety hill and dillen open their fall date next Tuesday when the Florida State harriers come to Franklin Park in Dorchester at 4:00 p.m.

La Societe de Brill-Savarin will convene at the River House meeting of the Freshmen’s Association. These appointments are open to recent graduates and present seniors in the Greek-letter classes for courses in college teaching and who will graduate next September.

In connection with this meeting, Acting President J. A. Branson has named Parke William Powers as the liaison officer to transmit to the Danforth Foundation two or three canons favorable to “a relationship of enrollment” throughout the years of graduate study, covering a program of financial aid if needed, with pre-collegiate impediments.

Dean Spear New
Danforth’s Officer; Applications Open

The Danforth Foundation of St. Louis, Missouri, has announced that it is now recruiting applicants to compete for their teaching fellowship.

The offices of the Foundation are open to recent graduates and present seniors in the Greek-letter classes for courses in college teaching and who will graduate next September.

In connection with this meeting, Acting President J. A. Branson has named Parke William Powers as the liaison officer to transmit to the Danforth Foundation two or three canons favorable to “a relationship of enrollment” throughout the years of graduate study, covering a program of financial aid if needed, with pre-collegiate impediments.
