Intramural Football Season Starts; Top Teams Shut Out Opponents

The Delta Tau Delta 36, Sigma Nu 0

The Delta's showed a good passing game and a solid line in their easy victory over Sigma. The first score was a 66 yard run on a pass interception. This was soon followed by a safety, and two passes to Hall '59. A punt return and another pass play finished out the scoring.

Sailors Second

The Sigma Chi 14, Phi Kappa Sigma 0

The Sigma Chi's feature a big team this year, yet they rely on an aerial attack. The key man in defeating Phi Kappa Sigma was Jim Long '60 at quarterback and Mark Jensen '60 at end.

Sailor's Strong Pass

The Phi Beta Pi 26, Delta Tau Delta 18

The Phi Beta Pi's have been ranked as the top team in the league all season. They have relied on their running game and a good defense. The Delta's were held to a single point in the second quarter, and didn't score again.

AEPi's Good Ground Game

The Alpha Epsilon Pi 32, Sigma Chi 14

The AEPi's defense was solid, while their ground game was good. The Sigma Chi's were held to a single point in the second quarter, and didn't score again.

Betas and Tau's Shut Out Non-Residents

The Beta Theta Pi 26, Non-Resident's 0

The Beta Theta Pi's crushed the Non-Resident's with a good rushing attack. They didn't allow any points in the second quarter.

The Tau's showed a good defense, holding the Non-Residents to only a single point in the second quarter.

The Theta Chi's shut out the Non-Residents with a good defense and a solid line in their easy victory over the Non-Residents.

AEPi's Strong Passing Game

The Alpha Epsilon Pi 32, Sigma Chi 14

The Alpha Epsilon Pi's showed a strong passing game, while their defense was solid. They allowed only a single point in the second quarter.

Betas and Phi's Shut Out Non-Residents

The Beta Theta Pi 26, Non-Resident's 0

The Beta Theta Pi's shut out the Non-Resident's with a good defense and a solid line in their easy victory over the Non-Residents.

Phi's showed a good defense, holding the Non-Resident's to only a single point in the second quarter.

End Run

A TEP starts around and in one of the quarter's that highlighted the weekend on Kings Field.

Robert R. Swisher, B.S.E.E., Grove City College, '54, Says:

"I like my job. Here's why."

"I'm a radio transmission engineer for Bell Telephone Company of Pennsylvania. My work is interesting and full of variety, and I get all the responsibility I can handle. Have a look at today's assignment, for example—and see for yourself."

"9:30 p.m. I'm at my desk setting up a new method for overcoming interference on Pittsburgh's mobile radio channels. It involves operating inactive channels on reduced power."

"10:45 p.m. Before my modifications can be made, it's important that I check systems and wiring options. That's what I'm doing here at the Remote Control Terminal equipment."

"3:15 p.m. I review my proposed modifications of auxiliary circuits with Supervisor Sid Great. Now I'll prepare work orders, and next week we'll make operational tests."

"See what I mean? I really got to 'carry the ball.' Soon I'll be taking a special course in advanced electronics at Bell Labs—a great opportunity. As I said—and I like my job."

Like Bob Swisher, you may find a bright engineering future with the Bell Telephone Companies. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.
