Clotworth to Dive at Swim Club’s All Institute Swim Championships

This year the MIT Swim Club is again presenting the All Institute Swimming Championships, the same program that won one of the Comp- tent Activities awards last year. The Championships blend all the good attributes of an excellent athletic contest and fine entertainment into a superb program. This year in addition to the competitive events there will be a diving exhibition by Mr. Robert Clotworth, NCAA three meter diving champion in 1958 and double gold medal winner in the 1956 Olympics. His performances are outstanding and entirely confirms his reputation as the best diver in the world today. Supporting this exhibition will be a clowns diving act and an Aqua Ballet by the Wellesley Acrobatic Club. In addition to the Miss Relay Scho- never, a junior at MIT, will give an exhibition of the swimming style that has made her one of the best women swimmers in the United States. She will be trying to set a new New England record for the 200 yd. indi- vidual Medley.

The competitive events will include the 40, 100, 220, and 440 yd. freestyle, the 200 yd. breaststroke, the 200 yd. braminstroke, the 200 yd. butterfly, and the two 400 yd. relays, medley and freestyle. There will also be one other competitive diving.

Sailors Defeated in Fowle Trophy Race

The MIT varsity sailing team was soundly defeated by a powerful Coast Guard crew in the finals for the Leonard Fowle Trophy Championship Sunday on the Thames River, New London, Connecticut. The Engineers had the consolation, however, of arriving this three days of elimination matches involving eighteen sailing teams to gain the finals in the coveted Fowle Trophy Race, symbol of the New England Sailing Championship.

Dennie Posey ’59, Bill Widnall ’59, Will Johnson ’59, and George Kirk ’60, were the skippers for the Cardinal and Gray in this race, the finals of the Fall racing season.
