**Engineer Tankers Top Coast Guard; Two Records Set**

The MIT varsity swimming team made its record 4-1 for the season Saturday as it bested the Coast Guard Academy 58-28 in Alumni Pool. Two records, an individual and a relay, fell as almost every man on the Beaver team improved his best time.

The team of Neil Divine '59, Bernard West '60, Tom Fagley '61 and Roger Kane '59 set the MIT varsity 400-yard medley relay mark with a 4:10.4 clocking. John Winkle '60 set a new varsity standard in the 100-yard freestyle with a time of 49.1.

Individual winners for the Engineers were Winkle (100-yard freestyle), Divine (200-yard backstroke), Fagley (440-yard freestyle) and West (200-yard breaststroke).

**HOCKEY**

(Continued from page 1)

Just at the nick of time the rink into the open cage. Engineers Terry Twice.

Despite these reverses the home team battled back, and at 12:30 the final stanza saw Cornell make the MIT varsity basketball team made a roaring comeback against a hefty Coast Guard Academy team Saturday night at New London, only to lose 66-65 in the closing seconds.

Betz with the poor shooting woes that often follow a long holiday lay-off, the Engineeragers trailed 58-34 with four minutes remaining in the first half. This began to find the range as they closed the Cadet margin to 77-65 at the half.

With hot shooting guard Hugh Morrow '60 leading the way, the Engineers raced back in the second half and knocked the count at 48 with about seven minutes to go. In a nip-and-tuck finish, Tech gained a 40-65 lead with just under two minutes to play. However, the Coast Guard quickly tied the score; after making a defensive rebound, the Cadets froze the ball until eleven seconds were left at which point an over-sager Techman foiled the opposition's Bob Ferguson in the act of shooting. Ferguson sank one of the charity tosses to give his team the 66-65 victory.

Morrow passed the Cardinal and Gray scores with 21 counters. Dennis McGinty '61 and Brian White '61 chipped in eleven and ten points, respectively.

TODAY, TUESDAY, JANUARY 13 AT 8:30 IS M.I.T. -- STUDENT NIGHT AT THE CHARLES PLAYHOUSE, 76 Warren Street, Boston

An invitation to Engineering and Physical Science Majors

Lockheed Missile Systems Division is systematically seeking for such major, long-term projects as the Navy Polaris IRABM, Q-3, X-7, Army English and other important space, research and development programs. The Division was honored at the First National Missile Industry Convention for "an organization that contributed most in the past year to the development of the art of missiles and related technology."

The Headquarters for the Division are located at Sunnyvale, California, on the San Francisco Peninsula. Research and Development facilities are in the Stanford Industrial Park in nearby Palo Alto. Other Division locations are at Van Nuys, Santa Cruz, and Santa Maria, California; Cape Canaveral, Florida; Aiken, South Carolina, and Hawaii. Together, they provide complete facilities with the latest scientific and technical equipment, including one of the most advanced computer centers in the nation. Employee benefits are among the best in the industry.

Graduate Study Program

For those who qualify and desire to continue their education, the Graduate Study Program enables them to obtain advanced degrees at the University of California at Berkeley, or Stanford University, while employed in their chosen fields at Lockheed.

Our college representative will be available on campus for interviews on JANUARY 14 and 15. For appointment, please see your Placement Director now.
