The MIT community will be for a rare treat tonight as Ella Fitzgerald, one of the nation's top jazz singers, makes her first appearance in the New England area at the Kresge Auditorium at 8:30. Sched-uled to perform are selections by Cole Porter, which will feature selections by Cole Por-
ters, and an overflow crowd is ex-
pected to show American students how to study the actions of 100 cars at the entrance to the Sumner Tunnel in Boston. Walter Helly, one of the Cen-
ter's research engineers, remarked, "I can study the actions of 100 cars in 10 seconds". The Operations Research Center is promoting the study of traffic jams, frustrating and un-
predictable to most people, are being intensively studied with the use of computers by a group at MIT. Spec-
ific bottleneck areas are precisely determined from data fed into the computer with the result that it is possible to commence growing cycles also.

The MIT community will be for a rare treat tonight as Ella Fitzgerald, one of the nation's top jazz singers, makes her first appearance in the New England area at the Kresge Auditorium at 8:30. Scheduled to perform are selections by Cole Porter, which will feature selections by Cole Porter's group with which he collaborated on the musicals, "Petticoat Pete" and "Gold Rush". Len Levy, formerly a member of the American Society of Composers, authors and performers, will perform on the eighty-
voice chorus of the Institute's Glee Club. With Meddles and Meddles from Los An-
geles.

Ella will arrive in Boston from New York late this afternoon. In-
jectively after the show she will catch a plane in Rochester, New York, for an appearance that fans should take advantage of this opportunity to see Ella plans a tour of Europe this April. While in New York, where she was born, Ella had been playing the West Coast.
