FRESHMEN BENREY, JACKSON
accomplished researchers

By Bob Johnson

Upon hearing the outstanding appraisal of their projects from Captain Norman A. Jelle, USAF, I win admission to meet the two freshmen at MIT who headlined in last year's National Science Fair. This country-wide Fair, held at Flint, Michigan, has climax ed the achievements of many academ ico-athletic high school students in top level competition for time and original entries.

For example, Ronald Benrey '62, coming from the Bronx, New York, attained second prize in the entire category of the Air Force Awards Program with his "home made" space satellite. His satellite (named "Argus") is a plexiglas sphere 54" in diameter containing a variety of instruments to test conditions in space. Freshman Benrey, Jackson

Two Years $5.00

WANTED: Persons to serve as subjects in a test development program. Room 105 at 4 p.m. on Thursday, Feb. 10. The test will last about 1 hour. Parents of all who have taken this test before are not eligible.
