Check this new collar style — the ARROW Glen

A broadcloth shirt with features that please the college man with an eye for style. The collar (button-down, of course), is a shorter, smarter-looking model. The fine broadcloth cools you throughout the warm days ahead.

There are trim checks in many color combinations, solids and white. $4.00 up.

'Graduate to Young Executive' Discussed by Van Alan Clark

Professor William Van Alen Clark, former Assistant Director of the School of Industrial Management, spoke to the Industrial Management Association on Wednesday night. Prof. Clark made informally about the "transformation from graduate to young executive."

Professor Mander-Edgins and Professor William Goetz of Course X Y were also at the meeting and spoke in the general discussion, much of which centered about applying for a job after graduation. Prof. Clark told the group that an individual should make wise decisions before deciding on a job, namely, what kind of work in what kind of industry, and in what part of the world he wants to be in. Prof. Edgins urged the listeners to be "well-read, not hopscotch" when interviewing.

Other topics brought up in the talk were preparation for executive positions and the types of work a graduate does in the first few years after graduation.

At the end of the evening's discussion, coffee was served.

Tech UN Delegation Invited to Montreal

The MIT Delegation which won the Delegation Award at the University Model United Nations in Montreal over the weekend has been invited to attend a symposium on Arab affairs put on by the McGill University Arab Club over the weekend. Diane S. Vinatieri, who was an official observer to the Model U.N., will travel to Montreal for the symposium.

Spokesman at the two-day conference includes Prof. Hamilton Gibb, Director of Middle Eastern Studies at Harvard; Prof. Wilfred Smith, Director of the Islamic Institute at McGill, and Mr. S. Charbonneau, Director of the Arab Student Delegation at Ottawa.

MIT represented Iran at the Model U.N. and acted as head of the Arab League until the delegation from the United Arab Republic arrived. One of the topics to be discussed this weekend will be Arab Nationalism — a topic which the MIT group discussed in caucus at the Model U.N. last November. For all Freshmen and Sophomores interested in the Student Committee on Educational Policy, there will be a meeting in the Spofford Room, Building 1-250 next Thursday, March 5 at 8:00 p.m. BCEP is a subcommittee of the Institute Committee, formed to maintain and promote educational policy on the MIT campus. BCEP is composed of nine undergraduate students in their third year and two faculty members, Professors of Electrical Engineering, Dr. George C. Newton, Jr., and Dr. Robert M. Ritter, Jr., associate director of the Service Laboratory.

Tangible results have been the delegations to the UN, research aid, and the improvement of the Freshman advisory system. The meeting will be held in conjunction with coffee and doughnuts. We are looking forward to meeting you then.

The TAREYTON Ring — MARKS THE REAL THING!

THE REAL THING IN MILDNESS . .
THE REAL THING IN FINE TOBACCO TASTE!

They were introduced only last semester, and already, New Dual Filter Tareytons are the big smoke on American campuses! How come? It's because the unique Dual Filter does more than just give you high filtration. It selects and balances the flavor elements in the smoke to bring out the best in fine tobacco taste. Try Tareytons today—in the bright new pack!
