

WANT THE BEST IN RESEARCH AIDS?

Curiosity isn't enough these days. To make major advances the engineer needs support equipment that's designed for discovery. He has it at Vought. A 3,800-mph wind tunnel, giant computers, environmental test labs, mock-up shops — all help him fathom the forces hidden in speed and space. Be sure to ask our representative about Vought research facilities.

This denial had been brought up by the NRSA in the Inscomm meeting in support of their coming event.
