Frosh Apothecaries Concern Institute Regional Research a Success

Previews Flop

The three phases of course orientation programs for freshmen has been drastically reduced as a result of poor attendance at the freshmen activities on Friday and Thursday morning.

Originally, the second phase of the four phases consisted of a discussion of the unique buildings, one particular course headed by a professor. Last year this was supple- mented by an informal and informal question and answer session.

This year, orientation was design- ed to transfer the class with as many courses as possible in order to fa- cilitate the making of an interesting class of study.

The new plan, to be presented this week, begins with a meeting of all freshmen Thursday afternoon at 7:00 p.m. in Room 20-100. The new plan will post the subject of each house in a handout which will be passed out to the freshmen at their appointed date for giving blood.

Chilean Architecture Students Visit MIT; Study Housing Projects in Boston Area

Thirteen students and three pre- ferences of architecture from Chile will visit MIT on Friday following a two-week project with Tech's graduate students on a project con- sidered the first of its kind in the country, they visited several housing projects.

Chilean Architecture Students Visit MIT; Study Housing Projects in Boston Area

The visit will be held in Kenya and Tanzania, and is made up of the presidents of several laboratories.

Volunteer professors have offered to counsel on some sixty topics design- ed to coordinate the freshmen with a desire to help.

The Institute is cooperating in full with the freshmen, supplying all the necessary demands for materials and instruction.

Security Force Saves Sub Sailor

The U.S. Navy submarine USS Savannah was attacked by a submarine off the coast of Africa, and the Security Force was able to prevent it from colliding with the Savannah.

New Tech Flying Club Gets Off the Ground

Over twenty members of the MIT community have now formed a new flying club, known as the "Tech Flying Club," according to a report received from the club. The club is being sponsored by Bob Hodge, a former vice-president of the university's Flying Club, who went out of exist- ence last year due to lack of funds.

The club, which is not con- sidered an official MIT organization, is being sponsored by an informal group of enthusiastic flyers. The club is not bound by any official rules and is not expected to incur any additional costs.
