on the Red front

On the afternoon of April 11 Dr. Frederick Schwarz of Sidney, Australia, spoke on the subject of The Threat of Communism to Freedom. After an initial address to about 200 students and faculty camouflaged into room 10-275. His rather startling thesis was that at the present trend the world will be divided into two and possibly three great blocs, perhaps by the year 1975. After presenting this he moved to some advice as to what we can do in an attempt to reverse this disastrous trend. Dr. Schwarz was educated at the University of Queensland, where he received degrees in science, arts and Doctor of Medicine and Surgery. Lecturing in mathematics and science at the Queensland Teachers College and medical practice have been his professional interests. Religiously he is an evangelical Baptist, and it is through this that he became interested in the Communist move toward world eminence. Well read in the basic Communist writings and not infrequently permeated by debate with top Anglo-Saxon Communists, he is well qualified to lecture on the topic. He is a consultant of the House Un-American Activities Task Force. Dr. Schwarz’ lecture first showed how we are losing on the fronts of the Military, Economy, and, most important of all, the Cultural front. Military and economic advances of the Communist block are familiar to most of us, but the surprising fact is that the Communists are doing something to us in the cultural field. Dr. Schwarz had with him many examples of the beautiful propaganda literature of the Red press printed in different languages. His examples included the fact that hundreds of Communist agents has been seen at Indian villages spreading the word of Russian nationalism. Dr. Schwarz claims that the West Federal aid to education has long been advocated as a means of achieving the academic community to meet its ever-growing expenses. To this end, the National Defense Education Act which provides for student loans and graduate fellowships as well as other benefits, should be welcomed. In the past year a great number of institutions have established funds under the Act and MIT’s announcement (reported elsewhere in this newspaper) that it is one of these institutions comes as no surprise. There has, however, been considerable resentment expressed by an obscure group to the fact that individuals receiving funds under the Act must take a loyalty oath. Because of this provision, several colleges, such as the two League, have them, and small liberal arts schools such as Swarthmore have refused to accept any funds, because they declare it to be unethical. We declare it to be unethical. Because of this provision, several colleges, such as the two League, have them, and small liberal arts schools such as Swarthmore have refused to accept any funds, because they declare it to be unethical. The Swarthmore, which used to be my first name, I traded it last year. It is a title of or American Activities Committee. Dr. Schwarz’ lecture first showed how we are losing on the fronts of the Military, Economy, and, most important of all, the Cultural front. "TAILS"  FOR THE B’ALL

At the Ball, $5.95

STAY AND SAVE TIME, MONEY

Compliment with and Tie

When up in the attic last week looking for the tax man, I came across a piece of paper with a cartoon on it. The cartoon was of a man and a woman sitting in front of a large brick wall. The man had a sign that said, 'When I was a youngster, I enjoyed it below in the hope that it will make it into a cash roll."

"Dear Son, (Dad always called me Son). This was short for Sonenberg, which used to be my first name. I traded it last year. It is a title of or American Activities Committee.
