SPACE, MISSILE & JET PROJECTS
AT DOUGLAS
have created outstanding
career opportunities for
SCIENTISTS and ENGINEERS
with or working on advanced degrees

Assignments include the following areas:
- **Heat Transfer** — relating to missile and space vehicle structures
- **Servo-Mechanisms** — relating to all types of control problems
- **Electronic Systems** — relating to all types of guidance, detection, control and communications
- **Propulsion** — relating to fluid mechanics, thermodynamics, dynamics, internal aerodynamics
- **Environmental** — relating to air conditioning, pressurization and oxygen systems

A Campus-to-Career Case History

In 1953, William Bryan Clinton, Jr., got his B.S. in Mechanical Engineering at Clemson College. Now Bryan's with Southern Bell Telephone and Telegraph Company at Columbia, South Carolina. He's doing specific planning of long distance communications projects involving microwave relay systems.

Bryan chose a career with Southern Bell over several other offers. "There were three things that were most important to me," he says. "First, I wanted to go to an established, growing company where I could grow, too. Second, I wanted thorough basic training to get started right, plus participation in development programs to keep me moving ahead. And, third, I wanted to stay in the South."

Bryan Clinton earned a B.S. degree in Mechanical Engineering. He's one of many young college men part of the development programs on advanced degrees.

"I got the engineering career I wanted ... and right in my own home state!"

Surprise Entry Possible

**JP Queen Contest On**

JP Queen contest nominations already well under way, the Public Relations Committee urges that students take note of the following. Any Junior may enter his date in the nominations by obtaining a nomination blank in Building 10 and bringing it with a 4 x 5 portrait to the Litchfield Lounge before Friday, October 25 at 8:00. There must be at least two portraits per date. The actual contest will be run from October 26 through October 30 and the entire student body will have the opportunity to elect five finalists. The Queen will reign over the Junior JC Week and the chariot will be decorated and rehearsed by the committee. Finalists will be selected from these finalists by the committee. Dates may be of either sex.

Twelve Russians to Visit MIT
At Their Request Next Month

Twelve Russian students will visit the Institute during the first week of November. This visit is a specific request on their part; when arrangements were made for their U.S. tour, they asked to see MIT. This request will be met, as far as security precautions will allow.

While they are in the Boston area, the Russians will be guests of the Crimson Key, a Harvard student group. During their visit, the Junior Honor Society, will take charge of them when they are at the Institute, which will be on either Monday, November 2nd, or Tuesday, November 3rd. Besides the tour, a luncheon at Graduate House has been planned for them.

Beverly J. Stahr has no information at present as to the nature of the visits, other than that they are connected with some project of student activity in the Soviet Union. Accordingly, it has not yet been decided whether they will meet mostly with students or with faculty; this will be decided as the age and interests of the visitors are determined. The last time that MIT played host to Russian visitors was in the fall of 1954, a group of student editors was expected; the individuals who came, however, were by no means students. They averaged thirty years in age and were professional editors of publications for students.

The Tech to occupy Third Floor

Activities Plan Moves in Walker

A wholesale move of organizations in Walker Memorial is in the wind, dependent upon Institute approval.

Present plans call for the Tech to occupy the area on the second floor now being used by TCA, which will move into Yerkes Laboratory, previously occupied by the Athletic Association. The AA has already moved to the new David Flitt Dalloul Athletic Center. Upon completion of the Tech offices, the Tech Shuttle will move in as well Alpha Phi Omega and the Lecture Service Committees. LSC, however, will keep its present offices as a work area.

Dean A. Hefner, holder of a second floor office, will move into an Institute office. The Debate and Finance Committee will share the Finance Committee's present offices while the Tech Shuttle office will be used as office space for temporary committees.

The status of the proposed change has not been set, pending Institute approval of the plan.

Senior House Holds Pep Rally

The football team of Senior House holds a pep rally on Saturday before the big game against Pa. A. S. M. The rally started at midnight when the strident notes of the Senior Band mixed with the slapping of the drums. A fire was started in the Great Bracket, and suppor'ters held a pep rally on Sunday evening before the big game. Senior House won the game on Saturday night.

One inebriated resident of Runkle was mistaken as a log and put out with a water balloon at one thirty a.m. The rally started at midnight when the strident notes of the Senior Band mixed with the slapping of the drums. A fire was started in the Great Bracket, and suppor'ters held a pep rally on Sunday evening before the big game. Senior House won the game on Saturday night.

The date of the proposed change has not been set, pending Institute approval of the plan.
