Humble will interview on the Campus
October 22 and 23

Interviewing teams from Humble Oil & Refining Company will be on the campus October 22 and 23 to interview students graduating in chemical engineering at advanced degree levels only.

Engineers and scientists at Humble share in the dynamic progress and growth of a leader in the petroleum industry. Humble is one of the leading producers of crude oil in the United States and is a completely integrated oil company. Humble's Baton Rouge Refinery, one of the largest in the world, is engaged in Refining and Petrochemical Manufacturing. Research centers in Houston, for development of better methods of exploration and production, and at Baytown, for research in manufacturing, are making valuable contributions to the petroleum industry.

A Quick Look at the Humble Company

Area of Operation: Texas, Louisiana, California, Mississippi, Florida, Alabama, Arizona, Georgia, Washington, Oregon, Alaska
Refining Capacity: 760,000 barrels daily
Retail Sales: Texas, New Mexico, and Arizona, leading Texas marketer of tax-paid gasoline.
Humble Pipe Line Co.: Operates crude oil and products pipeline in Texas; has capacity to transport more than 700,000 barrels daily.

For a rewarding career in the petroleum industry, discuss your future at your Placement Bureau for time and place of interview.

New cigarette paper "air-softens" every puff!

Now even the paper adds to Salem's springtime freshness!

Salem's amazing new HIGH POROSITY paper "air-softens" every puff.

Invisible paraflin openings blend just the right amount of air with each puff to give you a softer, fresher aroma. Now MORE THAN EVER Salem refreshes your taste.

An Important break-through in Salem's research laboratories brings you this special new Hum Porosity paper which breathes new freshness into the flavor. Each puff on a Salem draws just enough
- menthol fresh
- rich tobacco taste
- modern filter, too
