For Graduates Seeking

GROWTH TYPE
CAREER OPPORTUNITIES
IN CHEMICAL INDUSTRY!

Approaching its 50th year of specialization in industrial chemicals and commercial explosives, ATLAS is constantly on the alert for graduate engineers seeking unusual growth opportunities. Here at ATLAS in Wilmington, as well as in our nine manufacturing facilities and four research centers throughout the United States, we are planning and looking, as always, to the future.

Since YOUR future, as well as OUR OWN, could be closely linked together in the expensive period ahead, we invite your consideration of our opportunities.

For those who have degrees in Chemistry and Chemical Engineering, we have a wide range of openings. Our present need is for qualified men at every level for work in Research, Development, Sales, Management, Staff Functions and Production. We also need imaginative graduates who seek unusual experiences in Civil, Mechanical and Mining engineering.

Our financial rewards are many. Salaries are competitive with the industry; benefits are unsurpassed. And, opportunity for rapid advancement depends on you . . . our planned program of management development will prepare you for the responsibilities you are capable of assuming.

ON-THE-JOB-TRAINING

Most new technical employees start at ATLAS with a formal training course at one of the company’s laboratories. Afterward, they train on the job at an ATLAS laboratory, plant, or sales office, where they gradually assume increasing responsibility under the guidance of an experienced ATLAS staff member. Men with specialized qualifications may immediately begin the on-the-job phase of the training program.

Sawdust and a Gorilla

Sig Ep Circus Party

By Ed (The Ape) Underriner

With a sleet-and-snow mix falling from the clouds, and two 60 watt stereo speakers broadcasting music of the three rings to Beacon Street, the Sigma Phi Epsilon Circus moved into being last Saturday night.

Bob Anderson, '62, as barker, invited all Techmen and their dates to grind their feet into the sawdust and join the circus.

Entering the house, the visitors were greeted by six cages of animals behind the cage at the end of the room, Al Wright dispensed liquid refreshment.

Plaudits to the members of the MIT Security Force who got into the spirit of the circus by really swinging out with the Techmen, and generally entertaining the party.

As usual, this one had to pull up stakes and pack up -- which happened early Sunday morning. One question remained -- What will the Sig Eps do with all that sawdust?
