Lord Gives Organ Recital Sunday

Robert S. Lord, organist and professor of music at Davidson College, Davidson, N.C., will give an organ recital, in the MIT Chapel, this Sunday afternoon (January 10) at 4 P.M. A native of Matthews, Mr. Lord is a graduate of Dartmouth College and Yale University. He studied with both Andre Marchal and Jean Langlais in Paris, and gave the world premiere performances of Langlais’ “Modular Pieces” a selection from which he will present at the MIT concert.

The complete program will be as follows:

Three Easter Hymns
(Oven the Boston Organ Book)
Four Verses on the Hymn “Ave Maris Stella”
Prelude and Fugue in G Minor
Second Suite for Organ
“Cuous Haitian of the Haitian” Prelude and Fuge in F Minor (“The Wedge”)
Three Modal Pieces (1966)

The concert, which begins at 3 P.M., is a selection of the MIT Hymn Series. Tickets ($3.00) may be obtained from the Music Office, the Box Office or TCA 2-6312.

Chamber Concert in Kresge January 17

Boston’s “Quartet A Minor, Opus 180” will be the featured presentation of the distinguished Paganini Quartet, in Kresge Auditorium, Sunday afternoon, January 17. Other works included in the program are “Quartet in C Major, K. 465” by Mozart, and “Five Pieces, Opus 49” by Anton Webern.

The Paganini Quartet, well-known to Boston audiences through their Jordan Hall concerts, will be making their first appearance in Kresge. The program is composed of three Beethoven, the world premieres of four Paganini, and three Mozart quartets. It was returned to the club by the police.

Dave Sawyer, was subsequently named Chief of Police of Gifford City, a thriving metropolis on the club’s railroad.

Grant from Alumnus H. N. Slater, ’15, Makes Possible Air Transportation Study

The air age may have given way to the space age in the dreams of America’s youth, but the headlines of aircraft as our fastest-growing form of transportation have only begun.

A new program designed to help solve some of them is gaining headway here at MIT under a grant from H. Nelson Slater, ’15, an industrial executive and World Wars II flying ace.

Yesterday, under a program made possible by Mr. Slater’s gift, Professor Ross A. McIntosh, director of the Guggenheim Center for Aviation Health and Safety in the Harvard School of Public Health, led the eight. It was a series of flight transportation seminars for MIT students and staff.

NOTICE

Due to a delay in the publication of the MIT Telephone Directory, the eight fraternity extensions scheduled to change numbers on December 15th will be changed instead at the time of distribution of the new directory.

CLUB 60

Club 60, the official honorary and highly esteemed drinking society of the class of 1960, will hold its first meeting of the year 1960, this Saturday afternoon, from 4:30 to 6:00 at the Data House. Members of the class of 1950 who have been neglecting the Society’s duties are urged to attend these highly informative, educational, and entertaining assemblies are urged to make every effort to be there.

Self Help Pays

325,000 Savings Bank Life Insurance policyholders know the rewards of taking the FIRST STEP—going to their Savings Bank for information: liberal, early, cash and loan values; yearly dividends; wide choice of plans—lowered underwriting costs because you are associated with the growth of our highly esteemed drinking society.

Automatic translations from Russian to English

Recently, an experimental word-processing machine demonstrated conversion of a page of Russian to English in 10 seconds. The electronic devices of the future will not only make dictionary references automatically, but will also analyze syntax and semantics to provide a functional English translation.

This kind of work, now being explored at IBM, requires widely diverse talents and skills. People with backgrounds in business administration, liberal arts, engineering, mathematics and the sciences are making their valuable contributions. An observer might consider the work going on at IBM, as a barrier at IBM, where advancement has always been based on performance.

Diversity of work and advancement based on performance are advantages a younger person will find important in selecting a career.
