Students Celebrating in Customary Ways

The "voices of Spring" were celebrated early on campus this year, as MIT students began to enjoy the balmy Cambridge atmosphere with periodical traditional solemnities.

Last weekend, a dedication ceremony in honor of a hangman was held in one of the dorms. The police investigated the area and found no hanging student. They concluded that the call was merely a hoax.

ERRATUM

Contrary to the statement in last Wednesday's issue, the forthcoming Dizzy Gillespie concert will not be broadcast over WYBC.

Costello Makes 40 Saves

Icenem Dumped by Amherst 10-2

by G. H. Kais

Wednesday evening, Amherst came to MIT and left victorious, stemming over the Beaver 10-2.

The final and Greg Lawler are joined for the half of the first period. They held the Beavs in check until the second period when they broke through. Even though Bob Hawkins passed out to Bruce Tunison who pumped the puck past goalie John Costello, '62. Again the Beaver held their own, and at 5:21, Steve Levy, '62 passed to John Bigger, '62 who put the game away for the Amherst 5-2. Nineteen seconds later Bigger stepped in on the center and two more with 1:09 left in the first period gave the Amherst 10-2.}

The play remained fast and furious with the Beavs and White being concerned with the second period. The Beavs scored several times during the first. After a few points on a driving lay-up by guard Gary Brinker, '62, this lead was short lived by Sigma Chi. When Sigma Chi could not get a shot by Baker's Dick Brat, seemed to open the way for more points awhile Sigma Chi could not score. The shot by Sigma Chi, led by Bradt was blocked by the White for the Championshp on Sunday. Senior House defeated Grad House "A" basketball team 36-29.

Meet Sr. House for Championship

In December 1960, the Air Force Office of Scientific Research awarded 38 contracts amounting to $1,203,227 for basic research in areas of interest to the Air Forces. In addition, AFFOSR awarded 1 contract amounting to $246,115 for research on surface and regional seasons, and amounting to $5,280 for costs in excess of estimates.

The following papers submitted to the American Mathematical Society's journal "Mathematics" were reviewed:

- \textit{A New Proof of the Riemann Hypothesis}
- \textit{The Role of Symmetry in Quantum Mechanics}
