This year, fly home in the quiet comfort of United’s DC-8 Jet Mainliner

There’s no better way to travel anywhere than a United Jet Mainliner.

The DC-8 is fast, of course. It whisks you coast to coast in a few short hours. But it is more than fast. It is quiet and smooth . . . files up where the air is serene and peaceful . . . with hardly a vibration from the powerful engines.

The DC-8 Jet is comfortable, too. It has big, wide aisles that even a giant football tackle can room in, casually. The DC-8 seats, largest on any jet, have air vent, light, and stewardesses call buttons built right in — no reaching overhead. Your trip in this superb aircraft is topped off with United’s extra care service that makes you feel like a king. Provision: a de lux Laved Carpet® or economical Custom Coach Service.

Try the best — fly United’s DC-8. Fly it home; then for a really big treat, fly to Hawaii for a wonderful vacation. Economical Custom Coach and United tour prices make it possible on a moderate budget. See your Travel Agent or call any United Air Lines office.

BEST OF THE JETS... PLUS UNITED’S EXTRA CARE

Five Vought Divisions Provide Engineers Greater Opportunity for Space-Age Advancement

Young engineers, particularly, will be interested in the broad range of opportunities present in Vought’s five divisions and two wholly owned subsidiaries.

For every Vought engineer, there is a division to make full use of his talents and to speed his personal advancement. And, of course, he is backed by the four other divisions of Vought’s five divisions. Please address your inquiries to: Vought Industries, Inc., Dept. CN 26, Dallas, Texas.

RESEARCH DIVISION

In a new Research Center, scientists of this division will mine new knowledge from many fields. Basic research is planned into astrophysics, underwater warfare, the life sciences (relating to human factors of flight), electronics, and other areas. As it evolves into applied research, this advanced work will materially support other Vought divisions.

Vought Industries, Inc., famed late in 1959, is engaged in the design, manufacture and marketing of mobile homes, an industry with a great growth potential.

Varsity 5th, Frosh 3rd In New England Mat Tourney

Freshman Sue Evans, VG, was the lone individual winner for MIT in varsity and freshman wrestling teams gained fifth and third place finishes in the New England Championships at Williams Friday and Saturday, convincing Springfield retained its titles in both divisions.

Evans was undefeated in seven season and three New England matches.

Sullivan, Buffer Place

John Sullivan, VG, and Andy Bif Spiele, VL, placed for MIT in wrestling. Sullivan took third in the 147-lb. division and Buffer placed fourth among the 158-pounders.

Freshman Terry Chatwin and Mike Williams took seconds in their respective classes, 113 and 137 lbs. Coeery took third among the 147-pounders.

Streak Mark 5

During the regular season the men won five matches while losing three and gaining two ties. Varsity were recorded over Tufts, Wesleyan, UConn, UMass and WPI. The figures were to Harvard, Coast Guard and Springfield. Five were registered at Dartmouth and RPI.
