One of the best investments you'll ever make...

You know what you invest in advanced ROTC ... two years of classroom time and outside study.
But just see how handsomely your investment pays off.
First and foremost, there's the proud moment in Graduation Week when the gold bars of a Second Lieutenant are pinned on your Army uniform ... and deep inside the warm sense of accomplishment at having made it. There's immediate help in meeting expenses ... a subsistence allowance of $535 for the two-year advanced ROTC course. Uniforms and military textbooks paid for. $117 for your six-week summer camp training, plus travel allowance. And when you're commissioned, a $330 uniform allowance.
You discharge your military obligation with the traditional rank, pay, privileges and responsibilities of an officer in the United States Army.
And later, when you're starting your climb up the civilian ladder, advanced ROTC will still be paying off. Success in the executive areas of business and industry comes earlier and more substantially to the man who can lead. Few are born leaders; but leadership can be learned. And advanced ROTC is a great place to learn it.
Talk with the Professor of Military Science at your school. Learn more about advanced ROTC. Ask particularly about the ROTC course in Leadership, with its practical experience in command responsibilities.
