Get the facts about a career with Con Edison

Con Edison is in the midst of a huge expansion program to serve a constantly growing New York—the world’s most dynamic city. In five years we’re spending over a billion dollars to build new plants, sub-stations and distribution facilities and to find new and better ways to meet our city’s increasing demand for electricity, gas and steam.

Our tremendous growth is increasing the need for creative and ambitious college graduates—in both technical and non-technical fields. In the next fifteen years 750 of the 791 top management positions in the company will fall vacant—mainly through retirement. These important positions will be filled largely by men who join us now. Our carefully planned program for college graduates offers a good starting salary, major assignments at once and rapid advancement.

So why not get all the facts about the many interesting and worthwhile careers Con Edison has to offer...pick up a copy of our booklet “Con Edison—The Right Place To Build Your Future” at the Placement Office and be sure to talk with our interviewer when he comes.
