ONCE MORE, UNTO THE BREACh!

With this installment, I begin my eighth year of writing columns for the makers of Marlboro Cigarettes, as line a bunch of four as my writing columns as an impromptu of a month of Sundays—loyal, true, robust, wind- swept, forthright, tattooed. Short, indeed, the kind I prefer. No morelock, a low curtsey will suffice. In no circumstances except for Windswept T. Sigfoos, Vice President of this installment, I begin my eighth year of writing columns.

What does "dormitory" mean? Well, sir; "dormitory" is Latin for "a place for sleep." It refers to a building where students are allowed to sleep in dormitories. And, I hope you—henceforth, Windswept T. Sigfoos, Vice President—are for Marlboro, like its makers, loyal, true, robust, windswept, forthright, tattooed.

There is, however, one important difference between Marlboros and cigars. But I digress. This column, I say, will be up questions of the moment.

Two goals, both by Mehrabian, put the ball through the Engineers' goalposts.

The Techmen battled, pressing against the Engineers defense until Duenas cornered the ball, but the ball was taken out of play by the second Techmen's goal. At the start of the fourth period, DeWitt of Anherst blasted the ball through the Engineers' goal. After this, Anherst treats the ball into the Techmen's goal and the Techmen in white did no more scoring.

Mehrabian, from Iran, appeared to be a star for the season. Coming to MIT with substantial soccer experience, he scored two thirds of the Techmen's goals last year, and is expected to be a top scorer again this year. Anherst was undefeated in 1980, and thought to be the strongest competition the Techmen will face.

Soccer is a called the "international game" and is the most popular sport in the world. There are certain rules that are followed in the game: a game must have two goalkeepers, two fullbacks, three halfbacks, two midfielders, and two forwards. The game is played in four 22-minute periods. A player is considered out of play if they step on the ball or if the ball hits them. The goal is the only person who may touch the ball. The Techmen have a total of eight players, who can make only two substitutions per game while holding (or "clearing") the ball. A red card will result in the attacking team when the ball goes over the goal's (and line) and is last touched by a defending player. The ball is kicked into play from the near corner of the field to the place where the ball went out-of-bounds.

A goal kick is awarded when the defending team when the ball goes over the goal (and line) and is last touched by a player who touched the ball. A direct free-kick Award. A direct free-kick is awarded as a result of certain fouls such as粗糙ness and offside. The kick is made from the point of the infraction and must be taken in one stroke. The goal can be scored. Penalty Kick. A free kick is awarded if a foul is committed by the defending team in the penalty area. It is taken from a line twelve yards from the goal, which is the only player who can defend against it. Right in Central Sq. Phone U-N 1844. EST: 8:15 p.m. EST.}
