Crews To Seek Top Honors
By Elliot Red '62

The 1961 rowing season was the best in MIT's history; MIT placed second at the Eastern Slope Regatta last year and captured the DuPont Athletic Center Trophy of the Intercollegiate Rowing Association. This year they will be seeking the Brown Cup, which is awarded to the team with the highest points at the Eastern Slope Regatta.

The first meet of the season will be held at 2:30 p.m. on October 12 in the Charles River at Cambridge and will feature the first winner of the 1961 Brown Cup.

The meet will consist of two races, one of which will be the 12-mile race and the other will be the 6-mile race. The races will be held at the same time and will begin at the Cambridge Highway Club.

In addition to the Brown Cup, the meet will also feature the DuPont Athletic Center Trophy and the Intercollegiate Rowing Association Trophy. The latter two trophies will be awarded to the team with the highest points at the Eastern Slope Regatta.

The meet will be open to the public and admission will be free. The meet will be held on the premises of the Cambridge Highway Club and will be sponsored by the Cambridge Rowing Association.

The meet will be an exciting occasion for fans of rowing and will provide a chance to see some of the top teams in the country compete. The meet will also be an opportunity to support the Cambridge Rowing Association and to show your support for the sport of rowing.

If you are interested in attending the meet, please contact the Cambridge Rowing Association at 617-495-3333 for more information.

Every College Student needs this book
to increase his ability to learn

An understanding of the truth contained in Science and Health with Key to the Scriptures by Mary Baker Eddy can remove the pressure which con- structs today's college student upon whom increasing de- mands are being made for academic excellence.

Christian Science calms fear and gives the student the indi- assurance he needs in order to learn easily and to evaluate what he has learned. It teaches that God is man's Mind—his only Mind—from which eman- nates all the intelligence he needs, when and as he needs it.

Science and Health, the textbook of Christian Science, may be read or examined, together with other books of history, natural science, science of quiet and peace, at any time.
