**Kibitzer**

(Continued from Page 4)

followed by South's last trump, the $4. South was now down to all high diamonds, but West still held three winners in the suit of two trumps and a high club. At most tables, South was able to improve on this line of play enough to make $6, but he should without much difficulty be able to make $4. After trumping the $Q with the $10 and ruffling a little diamond in dummy, trumps should be drawn. The $K brings no unusual news, but when East fails to follow on the $A, South should realize that he has no ready entry back to his hand and overtake this card with the $4. Diamonds should then be run immediately. West trumps eventually, but that is the second and last trick for the defense as South still holds controlling trumps and the good diamond suit.

**how quiet is quiet?**

Cats are notoriously silent in their singularly feline way. But even the most stealthily treaded tomcat could take lessons from the men at Ford Motor Company whose job it is to track down and suppress unwanted noise in vehicles.

At our Ford Research and Engineering Center in Dearborn, engineers have created a unique room without echoes, virtually duplicating the perfect stillness that exists miles above the earth's surface. The "Silent Room", as we call it, is a chamber utilizing fiber-glass wedges as sonic "blockers" to soak up noise emanating from subjects undergoing developmental tests. In this acoustically sterile environment, electronic instruments seek out the source of vibrations, rumbles and squeaks so that they can be eliminated in production.

This scientific approach to silence is but a tiny facet of the many-sided program of pure and applied research which goes on daily at Ford Motor Company. It is another example of Ford's leadership through scientific research and engineering.

**EVERY COLLEGE STUDENT needs this book**

**to increase his ability to learn**

An understanding of the truth contained in Science and Health with Key to the Scriptures by Mary Baker Eddy can remove the pressure which concerns today's college student upon whom increasing demands are being made for academic excellence. Christian Science calms fear and gives to the student the full assurance he needs in order to learn easily and to evaluate what he has learned. It teaches that God is man's Mind—his only Mind—from which emanates all the intelligence he needs, when and as he needs it.

Science and Health, the textbook of Christian Science, may be read or examined, together with the Bible, in an atmosphere of quiet and peace, at any Christian Science Reading Room. Information about Science and Health may also be obtained on campus through the Christian Science Organization at MIT.
