Every college student needs this book to increase his ability to learn.

An understanding of the truth contained in Science and Health will help the student find his way to the Scriptures by Mary Baker Eddy and remove the fear which concerns today's college student upon whom increasing demands are being made for academic excellence.

Christian Science calms fear and gives the student the full assurance he needs in order to learn easily and to evaluate what he has learned. It teaches that God is man's Mind—his only Mind—from which emanates all the intelligence he needs and as he needs it.

Science and Health, the textbook of Christian Science, may be read or examined, together with the Bible, in an atmosphere of quiet and peace, at any Christian Science Reading Room. Information about Science and Health may be obtained on campus through the Christian Science Organization at MIT.
