T. S. Eliot, Noted Poet And Playwright, Speaks At Kresge Auditorium Tonight

T. S. Eliot, internationally known British poet and playwright, will speak at Kresge Auditorium tonight at 8:30 p.m. An infrequent speaker, Mr. Eliot is giving only three lectures while he is visiting friends, and relatives in the United States.

Mr. Eliot, who will read and comment on some of his works during the evening, is best known for his play "Murder in the Cathedral" and the poem "Wasteland," a magnum opus of the American West. Although his British citizens, T. S. Eliot was born in America and many of his works are written about this country.

Distribution of tickets began Monday. More than two thousand all seats were "sold out" within an hour and only a few standing room places, unlimited by 7:30 p.m. will go on a first come, first served basis.

T. S. Eliot

Jobs, Study Overseas

Foreign Opportunities Abound

Incomm's Foreign Opportunities Committee, headed by Tom Morgenstern, was established to help MIT students secure temporary foreign employment and to develop a workable program for foreign study.

The committee is attacking the search for overseas jobs from many angles. Letters are being sent to important foreign embassies to discover if organizations which might be able to place MIT students exist within these countries. At the same time, the committee is sending letters to major foreign companies to discover if they have unpublished job opportunities.

The faculty is also being approached by known names of industries, and companies within MIT industries. This might be particularly likely to have jobs available for MIT students. While most faculty members are willing to help, only a few names have been obtained. Another more fruitful approach has been to interview the foreign students here at Tech. Many of them are quite aware of the opportunities available in their countries.

Possibilities of a summer exchange program are being investigated. Under such a program, an MIT student would work abroad for the summer, and a foreign student would be found a job here. A junior year abroad program in being discussed at present by students and the residents' regent.

Other members of the committee are examining opportunities within Technical Coordinating Council programs. In the near future, a panel discussion on foreign programs will cover important aspects of the area. A taped interview with Eugene Morgan and Professor Shenker will be played on Incomm Open line over WTNB.

Invitation

President and Mrs. Julius A. Stratton cordially invite all members of the student body to attend a Christmas Open House at their home, 111 Memorial Hall at 7 p.m., Dec. 29 from 4 to 6 p.m.

Russian Ambassador Menshikov Will Lecture Here January 10

It has been three years since MIT first approached Mikhail I. Menshikov, Ambassador Extraordinary and Plenipotentiary of the Union of Soviet Socialist Republics to the United States, to speak on Soviet foreign policy. The ambassador subsequently negotiated and elaborated bargains that have culminated in the program will be President John E. Burchard and Undergraduate Association President Frank Olsen.

Carol singing in the lobby will follow the convocation, refreshments will be served.

All classes will be cancelled between 11 and noon. Everyone is cordially invited.

120,000 Computer Donated

A high-speed digital computer, to be used in teaching students the principles and operation of the modern electronic processing equipment has been donated to the Department of Electrical Engineering at the University of Massachusetts. The new computer, a "Programmed Data Processor" produced by D.E.C., was formally presented to Dr. Charles M. Townes, president of the Maynard electronic corporation.

Since many of the parts were in key positions at Digital trained at MIT, we are particularly anxious for more undergraduates to sit before these tools and assist them in learning and building modern computer technology.

The new computer will occupy 1,600 square feet of space.

Christmas Convocation

Dean Burchard To Speak

The annual All-Institute Christmas Convocation will be held in Kresge Auditorium Friday morning, Dec. 28 at 11 o'clock. This year the main speaker will be Dean John E. Burchard of the School of Humanities and Social Science. Also participating in the program will be President John A. Stratton and Undergraduate Association President Frank Olsen.

Carol singing in the lobby will follow the convocation, refreshments will be served.

All classes will be cancelled between 11 and noon. Everyone is cordially invited.

WGBH Razing Begun

3 Cents

President and Mrs. Julius A. Stratton cordially invite all members of the student body to attend a Christmas Open House at their home, 111 Memorial Hall at 7 p.m., Dec. 29 from 4 to 6 p.m.

Tuesday Issue

The Tech will be published Tuesday, rather than Wednesday, next week.
