Squash is an indoor sport whose popularity is steadily growing. Like tennis in many ways, squash is played with a specially designed room with a squash court, racquet and a rubber ball. The two most important shots are the serve and the return. The serve must hit the front wall and hit the back wall before it hits the floor. If the ball hits the front wall before it hits the floor, it is a "fault". The return must hit the front wall after it bounces on the floor. If the ball hits the floor before it hits the wall, it is a "fault".

**Introduction To Sports Squash**

By Bestwick Wyman '62

Squash is a game of skill and strategy played on a court divided into two halves by a single line. The two players hit the ball back and forth against the wall, trying to hit it in such a way that the opponent cannot return it. The game is played in a series of matches, with each match consisting of one or more sets. The winner of a set is the first player to win six games, with a two-game lead. The winner of a match is the first player to win three sets.
