**Baker Residents Erect Snow Barricade**

About thirty MIT students, mainly from Baker House, on Friday morning erected a snow barricade across the sidewalk from their house, in order to prevent entry of freshmen who are meeting in Memorial Drive. Although the barricade was scheduled to be removed after lunch, it was not taken off before noon.

**Infirmary Reports**

**Epidemic Of Influenza During Past Week**

The Infirmary has been operating close to its capacity for the last few weeks. This is due to the presence of an epidemic of influenza, according to Dr. Albert O. Seeler, Medical Director. Colds have also been set up in the Infirmary to supplement its capacity of 22 beds, in order to handle patients other than those in the Infirmary during the present period.

A laboratory analysis is being made to determine the nature of the epidemic. It is believed that they might have been a type "B" influenza infection present, but it will take the Infirmary a few weeks to analyze the cases.
