Letters to The Tech

Dear Friends Wanted

To the Editor:

I have started an international "Friends Wanted" campaign to help 20 people who have many Australians on my list. I can't afford to send out letters to everyone, so would you be willing to correspond with others, who would like to correspond with students of your Institutions? There are wonderful opportunities for international contact and cultural exchange. Please contact the Tech if you are interested, and we will provide the necessary information.

Sincerely,
