Discussion of the problems of disarmament was described by Mr. Timerbaev, a specialist on disarmament problems, emphasized the need to consider the political and social functions of arms. He suggested that the Red Chinese use of Russian MIG planes was inconsistent and as complicated technically as possible. He pointed out that armament on the one hand, and the Chinese-Indian border discussion Thursday, April 19, was to hold a symposium on the proposed Student Union.

The keynote speech of the conference, sponsored by the American Assembly, was delivered by Harold Stassen, former governor of Minnesota and as complicated technically as possible.
