Parents' Weekend

Wind, Fuel Cells, Blood Shown By Chem Eng

At 1:45 p.m. in the central corridor of Building 12, the Department of Chemical Engineering will begin a general tour of the laboratories in Building 12. The tour will feature various exhibits of student research. At the conclusion of the tour, there will be a coffee hour, from 3:30 to 4:30 p.m., for faculty and parents in the Lewis Conference Room.

Highlights of the planned demonstrations will include work being done on the rheology of blood, fuel cell demonstrations, wind tunnel studies, and a visit to the instrumentation room.

The tour is free and open to all. Department 601 at 2:45 p.m. will also be open to the public.

Lab Kits, Radio Signals

The Electrical Engineering Department will start its program of tours and demonstrations at 2:45 p.m. in the lobby of Building 12. The tour will include such things as demonstrations of E.E. home laboratory kits in room 3-402, radio signal detection and do-it-yourself communication receiver in room 10-475, high-speed photography in room 4-166, and a demonstration of MIT's TX-0 computer.

Coffee Hour Planned By Biology

Student demonstrations in biology will be held in 10-315, beginning at 2 p.m. on Sunday. These demonstrations are under the supervision of Robert W. Morrisey 83 and will last until 3:30. Then the Biology Department will hold an informal coffee hour with the faculty in Loeb Lounege, 16-111, from 3:30 until 4:30.

XIII To Create Waves And Cavitation

In conjunction with Parents' Weekend, the Department of Naval Architecture is offering tours and demonstrations of various of its facilities. From 2:30 p.m. to 2:45 the department's Towing Tank in Building 48, at the corner of Albany and Maine Streets, will be opened. The tank is used for fundamental research in ship motions and is part of an overall program aimed at enabling theoretical predictions of the motions of an arbitrary ship in any sea. The tour will include a demonstration of the behavior of a hydrofoil boat in waves of various amplitudes.

Check your opinions against L&M's Campus Opinion Poll "21"

1 Which would take more courage?

- [ ] ship to the New World (in 1492)
- [ ] rocket to the moon (in 1969)

2 Is it true that "clothes make the man?"

- [ ] Yes
- [x] No

3 How did you choose your present brand?

- [ ] "Smoked around" till I found it
- [ ] Stuck with the one I started with

Get Lots More from L&M

L&M gives you
MORE BODY in the blend,
MORE FLAVOR in the smoke,
MORE TASTE through the filter.
It's the rich-flavor leaf that does it!

L&M's the filter cigarette for people who really like to smoke.
