Seven MIT Students In Space Course

Seven MIT students are among 62 students from the United States and Mexico who will participate in Columbia University's first Summer Institute in Space Physics, July 2 to August 19. They are Uri Bernstein '63, Robert Edelson '63, Gilberto T. Perez-Uribe '64, Bruce A. Peterson '63, Harvey Pichon '63, Floyd W. Skelley '63, Roger J. Sullivan '63. The participants were chosen from 363 applicants in a national competition. They will receive tuition scholarships plus $35 a week, round-trip travel fare to New York City, and a field trip to the NASA research centers at Huntsville, Alabama and Greenbelt, Maryland. The program is being conducted with the support of the NASA. Dr. Robert Justrow, Adjunct Professor of Geology at Columbia when it is in Huntsville.

The Everett Moore Baker Memorial Foundation will donate more than $500 dollars this spring to assist worthy projects in perpetuation of the goals of Dean Baker. Student activities and other groups interested in applying for funds of the foundation, must submit a detailed proposal (including a budget) for a particular project to the foundation, at Liechfield Lounge, Baker Memorial, by April 20. No action was taken against a third student due to insufficient evidence.

For further information, contact George Lakoff, Chairman of the Foundation, at 27 Magnolia Ave., Cambridge, UN 4-1830.
