Letters:

(Continued from Page 4) of non-academic student life at MIT. It is unreasonable and unfair that one student, however large, should be allowed to over the entire building for a closed affair.

Although Walker was not actually closed, many students assumed from the letter, that it would be, and were forced to change plans. Activists Council must act now and make a definitive statement prohibiting any attempt to close Walker for such an affair in the future.

Solution To UNH Money Problems: Male Economic Recovery Program

Studio Without A Station

UNH has problems adequate housing in an economic nature. For example, in the UNH's new Memorial Union is a professional radio station, but no radio station is to go with it.

For the last five years, WMDR had been serving as a carrier station (in the same way as WTDY on AM). During that time WMDR was using a power of 60 watts and more recently of 40 watts. Three someone noticed on FCC regulation that carrier stations are allowed even if not heard. To keep the FCC regulations, they need to use a power not greater than 100 watt.

Furthermore, WMDR had been using the entire electronic circuit of UNH as an antenna. It was then found that FCC regulations impose restrictions on the length of antennas. When it was also found that the FCC imposes very stiff fines ($500 a day) to the beginning of the violation. WMDR decided to leave the air. It does not exceed the potential $200,000 fine it accumulated, however, because complaints can be made only during the time of violation. Any prosecution now would be ex post facts.

WMDR has not left the air permanently, however. It has applied for a commercial FM license and hopes to be transmitting again by December 1.

Goin' Up

Tech students who have not become preoccupied with the construction work going on here at MIT might have noticed that construction work is going on at WUB. (Please turn to page 14)

EVERY COLLEGE STUDENT CAN BENEFIT

by reading this book

An understanding of the truth contained in Science and Health with Key to the Scriptures by Mary Baker Eddy can remove the pressure which concerns today's college student upon whom increasing demands are being made for academic excellence.

Free to You for 30 Days

Science and Health may be read, borrowed, or purchased for $3 at any Christian Science Reading Room. If you request a copy it will be mailed to you postpaid. After 30 days you may keep the book by remitting the cost or return it to the Reading Room in the mailing carton provided.

Information about Science and Health may also be obtained on campus through the Christian Science Organization
