IM Tennis Season Opens Tuesday

By CHET WOLKIN

The 1962 Intramural Tennis season begins with first-round matches on Tuesday, September 11. As in the past, the schedule will consist of a single elimination tournament among all living groups entered. Each team will consist of seven men and two double matches. Until the semifinal round, matches will consist of single sets which must be won by two games.

Last year's winner, Graduate House, and runner-up, East Cambridge, are entered in the draw along with some twenty living groups that will be competing for the unofficial MIT championship.

Tech Golfers Stopped By Strong URI Squad

The long drivers on the team, and John Street should also prove to be valuable assets to the squad.

Bouncing back the team are soph Ray Overy, Tom Heberg, Joe Morganino, Bill Strohmair, and Bob Wirth.

Book Managers

Despite the high degree of student interest in golf at MIT, both the varsity and flash teams are still in need of managers. Students interested in these positions are urged to contact Coach Merriman immediately.

In Coach Merriman, Tech is fortunate in having a man with almost forty years of coaching experience. After graduating from Springfield College where he lettered in baseball, football, and golf, he coached various sports at Westover Academy, Trinity College and the Coast Guard Academy, where he also served as athletic director. Mr. Merriman came to MIT in 1957 and became varsity golf coach in 1959.

'S66 Views Cuba Invasion

(Continued from page 1)

Monroe Doctrine as the reason for being in favor of invasion. "The only way to stop the advance of Communism is to draw a line and forbid them to step over it. The Monroe Doctrine drew the line. They stepped over.

If we don't stop them now, they will keep on stepping until they get to the Potomac."

One philosophical Tuchman had this to say: "To ensure that our security remains firm, to enforce the Monroe Doctrine, and to announce to the world that at long last we have chosen in a decision between keeping our values and surrender to the U.S.S.R., we should invade. The absence of values is a prime indication that we as a nation have lost our way."

"Barry Goldwater's formula naturalisti
cally got in a few comments: "Not only does Barry Goldwater loudly approve the plan, but it really appears quite logical on the face of the fact that this island is becoming a base from which the Communist Czars can launch new aggressor attacks against the nations of the Western Hemisphere."

Another, more treating than the first, implies that there is no need whatsoever for logic. "Barry Goldwater says so and what Barry Goldwater says is good for the U.S.I."

"What Happens?"

Another of our foreign policy experts says "Of course we should invade. Ramos is bluffing. Hit them with fire bombs and see what happens."

"An ounce of prevention is worth a pound of cure."

"Our Marines have to do something to avoid total boredom."

Of course, there was one semi-erectile comment on the President's family: "Yes, because Caroline doesn't see the plans among fascist activities anymore!"

A Utility Ball Pen.

The LINDY

A good practical pen for everyone.

Everybody likes the LINDY.

It write nice.

Lots of students buy two or three at a time.

Maybe because it's only 30¢.

Maybe because there are twelve brilliant ink colors.

Or maybe they just like to have two or three or twelve around.

Also nice to have around:
