WGBH Notes New Studio Plans, But Finds Itself Needing $100,000

WGBH has obtained land and drawn up plans for a new building.

Since its old studios, across the street, were destroyed by fire last October, it has had to rely on facilities made available by the Ortho Center Corporation.

Though the land for the new site is worth over $350,000, Harvard’s budget is making it available for an annual tuition fee of one dollar.

Construction work has already started near the Harvard Business School and is due to be completed by next autumn.
