New Flight Transportation Program
To Modernize Training For Airlines

A new graduate program in Flight Transportation is to be
launched by Prof. Rene H. Miller,
H. H. Storer Professor of Flight
Transportation.

The program will encompass students and faculty of the De-
partments of Aeronautics and As-
tronautics, Civil Engineering, Electrical Engineering, and In-
dustrial Management.

The new program is considered of major importance to the avia-
tion industry, which has been
plagued with problems resulting
from technological progress and
increased competition. Its purpose
is to train engineers to apply mod-
ern jet aircraft. Sponsored re-
search topics will include aero-
dynamic and vertical-takeoff aircraft,
air traffic control, and the effects
of aircraft's noise. One of the
program's courses is specifically
concerned with vehicle instrument-
tion and guidance.

Graduates in the program are working toward ad-
vanced degrees in Aeronautics, Civil Engineer-
ing, and Industrial Management.

MIT Fencers Downed By Cornell, 14-13

Cornell's fencers edged MIT 14 to
13 in a closely fought match
last Friday. The loss extended Tech's losing streak to 4 matches.
In a disappointing performance
our full team lost to a relatively
underpowered Cornell squad 7 to
2. Junior Jaime Zimmerman,
dropped two of his three bouts.
Junior Mickey Wheeler, usually in-
volved in close affairs, was substituted against Con-
nell's third foil, Abrams, and
won his last bout 5 to 2. Although Ab-
ransom previously had defeated
Zimmerman and senior Barry Ro-
se, each 5 to 2.

Riflemen Edge Maine

The MIT rifle team finished this
year's competition in the New-
England College Rifle League with
a one-point victory over the Uni-
versity of Maine last Saturday.

MIT had a good start going
into the last relay, and it ap-
pared that Maine's last two riflemen
could not challenge the Tech lead.
Their last two men, however, scored 283
and 286, to bring Maine's aggre-
gate to 1318, their highest of the season.

MIT was somewhat handicapped
by the inability of three shooters
to make the overnight trip to Ban-
ger, but the seven who made the
trip shot well. The high five were
Dick Ludwick '63, 287; Steve Be-
ward '65, 287; Jerry Skinner '63,
285; Jim Downward '65, 287; and
Dave Haste '64, 287.

MIT beat Maine, 14-13, with a
one-point victory over the Uni-
versity of Maine last Saturday.

The sabre team lost, 5-4, against
April 14th (right) makes unscathed entry in his full match
against Cornell's Peterson Friday night. The fencers were edged by
Cornell 14-12.

Norman Cohler (left) makes unscathed entry in his full match
against Cornell's Peterson Friday night. The fencers were edged by
Cornell 14-12.
