Memorial Set For Nugent

Father J. Edward Nugent, Newman Club chaplain at Harvard University, died of a heart attack Jan. 23 in North Easton, Mass., at the age of 48. He had been caretaker of the Newman Club since 1959.

Father Nugent was also chaplain of the Newman Club at Harvard Law School, the Harvard College and Graduate Schools and Wellesley.

Father Nugent was born in East Orange, N.J., Feb. 25, 1914. After earning his degree at Villanova University, he joined the Paulist Fathers. Francis Cardinal Spellman ordained him a Paulist priest on May 30, 1947. Father Nugent served as Newman Club chaplain at the University of Notre Dame, Indiana, and the University of St. Thomas, Minnesota.

In 1955 he was assigned to Rome as liaison between the Vatican and American and international religious organizations. He has been chaplain at the University of California at Berkeley, the Central Committee for American Catholic University Students in Rome, the Newman Club at the University of St. Thomas, San Antonio, Texas, and the Newman Club at the University of Notre Dame, Indiana.

Since becoming chaplain at the Newman Club at Harvard University in 1959, Father Nugent has been closely connected with the Newman Club at Harvard University, the Catholic Club, the Newman Club at Harvard University and the Newman Federation of the United States.

Memorial services will be held Friday, March 8, in the Church of the Presidents of Harvard University. The service will be sponsored by the MIT Religious Council.

All interested members of the MIT community are invited.

AN OPPORTUNITY TO GROW
IN THE HIGHEST PROFESSIONAL WORKING ENVIRONMENT

ELECTRICAL ENGINEERS
PHYSICISTS
MATHEMATICIANS

Technical representatives of the MITRE Corporation will be conducting interviews on campus February 27, 1962

MITRE designs and develops systems that enable our military to detect attack and retaliate instantly. Typical systems include Nuclear Detection and Reporting Systems, North American Air Defense Combat Operations Center, and Back Up Interceptor Center. MITRE is also experimenting with techniques for future air traffic control systems.

For the young systems engineer there is no more rewarding work. You associate with the top men in your field. You work in an atmosphere that allows you to extend your capabilities professionally and academically.

AT MITRE, men trained in single disciplines are encouraged to grow beyond their original fields of interest. Systems designers learn to work from an increasingly broad base.

You may work in such diverse areas as information theory, computer design, display techniques, propagation, or human engineering. You may analyze or synthesize. You may deal with systems or individual components. At the highest levels, you may have to consider political, economic and social factors... as well as the available and predictable technology.

Bachelor's, B.S., M.S., or Ph.D. in these disciplines — electronics, physics, and mathematics. MITRE is located in pleasant, suburban Boston. If an interview will be inconvenienced, inquiries may be directed in confidence to Vice President — Technical Operations, The MITRE Corporation, Box 208, Dept. 567, Bedford, Mass.

MITRE, an independent nonprofit corporation, working with — not in competition with — industry, serves as technical advisor to the Air Force Electronic Systems Division and is chartered to work for such other Government agencies as the Federal Aviation Agency.

ARRANGE FOR AN INTERVIEW THROUGH THE PLACEMENT OFFICE.

When a cigarette means a lot...

get Lots More from L&M
more body in the blend
more flavor in the smoke
taste more through the filter
It's the rich-flavor leaf that does it! Among L&M's choice tobaccos there's no longer-aged, extra-cured leaf than even in some unfiltered cigarettes. And L&M's filter is the modern filter—all white, inside and outside — so only pure white touches your lips. L&M's filter cigarette for people who really like to smoke.
