Conference

The Department of Electrical Engineering will hold an open house for freshmen this afternoon at 5:00 in the Hemenway Bldg, Room 312 E. Following the reception in the lounge, Professor E. E. Conwell will speak on "The Role of Engineering in Modern Society." There will be an opportunity for questions during the reception and afterwards. The evening program will include demonstrations of laboratory equipment and a brief talk by Professor E. E. Conwell on the history of electrical engineering.

Four departments give orientation open houses

The Department of Electrical Engineering will give an open house for freshmen today in the Van- nevar Bush Room, 20-30, from 4:00 to 6:00 p.m. The open house is for students who are considering a major in electrical engineering and for any other interested individuals. The purpose of the open house is to provide an opportunity for students to learn more about the department and its programs.

The Department of Geology and Geophysics will hold an open house for freshmen this afternoon at 5:00 in the Hemenway Bldg, Room 212 E. Following the reception in the lounge, Professor E. E. Conwell will speak on "The Role of Geology in Modern Society." There will be an opportunity for questions during the reception and afterwards. The evening program will include demonstrations of laboratory equipment and a brief talk by Professor E. E. Conwell on the history of geology.

The Department of Life Sciences will give an open house for freshmen this afternoon at 5:00 in the Hemenway Bldg, Room 312 E. Following the reception in the lounge, Professor E. E. Conwell will speak on "The Role of Life Sciences in Modern Society." There will be an opportunity for questions during the reception and afterwards. The evening program will include demonstrations of laboratory equipment and a brief talk by Professor E. E. Conwell on the history of life sciences.

The Department of Humanities and Science will give an open house for freshmen this afternoon at 5:00 in the Hemenway Bldg, Room 212 E. Following the reception in the lounge, Professor E. E. Conwell will speak on "The Role of Humanities and Science in Modern Society." There will be an opportunity for questions during the reception and afterwards. The evening program will include demonstrations of laboratory equipment and a brief talk by Professor E. E. Conwell on the history of humanities and science.

Strike ends

The New York newspaper strike is over, after a four-year-old deadlock. What are the results of the strike? (1) Millions of people in New York and elsewhere were left without their familiar daily newspapers. In radio, television, magazine, and several new dailies moved in to try to fill the gap left by the strike. (2) There was little economic loss to many businesses which depend on newspaper advertising for their sales. A short depression started in the Canadian paper-producing areas which supply the dailies. (3) The newspaper price of several newspapers has doubled.

This strike, like most strikes, hurt many people and helped few. It weakened the position of the publishers and employees of the papers because it undermined the public confidence in newspapers, just as it is not basic to survival, only a pleasant and convenient way to get informed.

Inside Inscom

Inscom prepares for next year; interviews for many jobs Tuesday

Editor’s Note: Steve Miller ’64 was elected chairman of the Inscom Board last month. He will serve for the forthcoming year.

Finance Board is unique in the Institute as it is the only one of the 21 subcommittees of the Institute Committee for文艺 and science. The treasurer is chosen by the chairman of the committee. The chairman of the committee is chosen by the Inscomm Committee.

The Finance Board is one of the most important of the subcommittees, and the work of the Inscomm Committee and the Finance Board is of vital concern to all students who want to study arts and science.

(1) Distributing the Institute’s grant of about $40,000 a year among the subcommittees.

(2) Helping activities with a financial goal, if possible.

(3) Keeping a watchful eye on the financial affairs of the arts and science and the Inscomm committee, to try to stop financial abuse.
