Crews aim for best year as season starts Saturday

By Chris Miller

The MIT crews kick off their intercollegiate season this Saturday, April 12, at 9:30 a.m. The teams will compete against Harvard and MIT in the Charles River. The distance of the race will be one and three-quarter miles, which is the full length of the Charles River Bridge, the Longfellow Bridge, through the Harvard Bridge, to just past the BU Bridge. These races are just the beginning of what appears from all indications to be one of the most exciting and successful seasons in MIT history.

Lights, Camera, Action!

For the lightweight oarsmen, things are now measured in tenths of a second. Most races this season will result in a victory of one-tenth of a second or less. A race of 600 yards will be won by one-tenth of a second. A race of 600 miles will be won by one-tenth of a centimeter. A race of 600 years will be won by one-tenth of a microsecond.

The Tech nine dropped two games last week to bring their record to 1-5. The team traveled to Harford, Conn., on Monday, April 7, and faced the Charles River Bridge. These races are considered the most exciting and successful seasons in MIT history.

The races begin at 9:30 a.m. with the Tech nine downing by Trinity, Wesleyan.

Drew Forst looks to transfer in Saturday's game with Wesleyan. Wesleyan won the Harvard race with a score of 18-2.

The lightweight oarsmen, though having suffered the loss of several valuable and experienced oarsmen, have been revitalized by the influx of many capable and hardworking freshmen. Capitaneled by Anthony Ferry '64, the heavyweight oarsmen have seven returning lettermen and a powerful newcomer, Ron Clowish '67. Ron has rowed with the varsity heavyweight for the past two years. In the 1590 yard intermediate hurdles, Ron Clowish '67 finished third with a time of 57.95 seconds. Ron has rowed with the varsity heavyweight for the past two years.
