The New Christy Minstrels, the Coasters, and the Isley Brothers will entertain at this year's Homecoming Weekend, beginning with the formal Friday night dance and with Beaver Key's presentation of Field Day on Saturday. Tickets are available in the ticket booth for $1.50. According to Bill Samuel '65, committee chairman, tickets went on sale a few weeks in order to obtain tickets. A distribution policy will be announced at a later date.

The show will close Saturday night with a revue called "Sister at the Bar," which is expected to be a hit.

Panel discussion Oct. 8 on Indian development part of India Week

MIT is taking part in the World Affairs Council of Boston's India Week, Oct. 7-12 by presenting a panel discussion on "The Indian Development Experiment" - its implications for the future Tuesday, Oct. 8 at 8:15 in Kresge Auditorium.

The panel, headed by Dr. Charles E. Wilson, MIT professor of the economics of technology, will include Mr. B. K. Nehru, India's ambassador to the U. S. Mr. Wilson will be joined by Dr. Ann E. Kinzig, MIT economics professor, and Dr. Max Millikan, director of MIT's Center for International Studies.

The group will discuss the economic problems of India.

For information and tickets, call Raga Nath, Extension 156.

Feastful president

Tau Beta Pi officers elected

The MIT chapter of Tau Beta Pi, national engineering honors fraternity, recently elected officers for the coming year. They are: President, Edward A. Feustel; Vice President, Laming F. Willett; Secretary, Charles D. Davis; Treasurer, James M. A. Wall; Corresponding Secretary, Charles J. Van de Sande; Membership Secretary, George B. Davis; and the delegate to the national convention, James M. A. Wall, Jr.

Eligibility for membership in Tau Beta Pi is restricted to those in the Schools of Engineering, Architecture, and Architecture and Urban Planning who are in the top fifth of their class at the end of their freshman year or in the top quarter of the senior year. Women cannot become regular members, but are eligible for special membership. New members are elected in October and February on the basis of superior work and "promise of future contribution in the field of engineering." They will serve on the national council from April to April of the following year.
