Wednesday, October 31: AC Spark Plug, Boston Engineering Factory; General Motors Corporation; Western Electric; United Technology Center.

Friday, November 2: Allegheny Blasting Furnace Co.; General Electric Co.; Harley-Davidson Co.; Phillips Research Center; NASA/Goddard Space Flight Center; Pratt and Whitney Aircraft.

Monday, November 5: American Honda Motors Co., Inc.; American Motors Corporation; Caledon Standard of Ohio; United Technol- ogy Center; Wyeth Laboratories, Inc.; Central Intelligence Agency.

Tuesday, November 6: American Motors Corporation; Uni- versity of Illinois; Office for an appointment to talk with Dr. Narud.

The following companies will have representatives on campus next Tuesday:

Motorola offers the student at the BS level an opportunity to be an ELECTRICAL ENGINEER in a rotational program covering four engineering activities in the marketing area.

Motorola opened in 1968 the third largest electronics research center in the world, the Advanced Technology Research Center. This center is dedicated to the research and development of electronics and computer systems.

The problem then became one of disposing of the huge corpse. The first thought was to donate it to Michigan State's museum, but the museum's immediate re- action was: "We already have a couple of elephants. What would we do with another one?"

Career Opportunities at MOTOROLA

With a major expenditure in 1,000,000 square feet, the world's largest semiconductor facility in the world.

ELECTRICAL ENGINEERS or ORGANIC & PHYSICAL CHEMISTS or PHYSICISTS or CHEMICAL ENGINEERS or METALLURGISTS

BE SURE TO ASK ABOUT THE ENGINEERING AND MARKETING TRAINING PROGRAMS.

Motorola offers the student at the BS level an opportunity to advance his career and education concurrently. Work and achieve a BS degree in an environment of constant challenge.

On Tuesday, November 5th, Dr. Jan Nared, Manager Circuit & Systems Research Department, will be on campus to discuss career opportunities with interested candidates. Contact your Placement Office for an appointment to talk with Dr. Nared.

THE ENGINEERING TRAINING PROGRAM

Open to BS graduates in Electrical Engineering or Physics with a B average or better. While pursuing an M.S. degree in Arizona State University, a student will be placed in a rotational program covering four engineering activities.

THE MARKETING TRAINING PROGRAM

Open to BS graduates in Electrical Engineering or Physics with a B average or better. The program is designed to prepare the student for entry level positions in marketing.

THE JOURNEYMEN

IN A WILD, DRIVING, SPIRITED, EXCITING, AND SOMETIMES QUIET NEW WAY.

Listen to their Capitol album, "New Directions in Folk Music." You'll hear the rocking, driving way the Journeymen sing "Someday Baby." A low down blues out of Chicago. The fun they have with "Stackolee" the wild song about a legendary terror of New Orleans. Their quiet and moving version of "All the Pretty Little Horses," one of the most beautiful lullabies ever written.

They sing honest folk songs.

Look for — ask for — the Journeymen in concert on your campus.
