Independent psychology department

When the psychology section of the Economics and Social Science department was added, the faculty also expected that it would become an independent department some day.

Recently a high Indian official said that he regarded psychology for department status to be made in June of 1964 or of 1965. The recent reluctance of psychology professors to comment on their plans leads us to suspect the application will come this June.

The psychology section is already almost autonomous. Hence, aside from mere formalities, the only major organizational change in making it an independent department would be separating its budget from that of Course XIV.

Student Center

The absence of the Student Committee from the Article Council meeting at Endicott House is the latest indication that it is time MIT students with an information vacuum about the Center.

Since last year, the student activities meeting last May, the student activities center, which has been in the center of the MIT campus, for some time, the activities center has been under consideration.

Many activities head stands ready to hear the handwriting on the wall. They are not being consulted about the feasibility of the activities center, office floor, group many heads are understandably concerned.

Some students headstands ready to hear the handwriting on the wall. They are not being consulted about the activities center, office floor, group many heads are understandably concerned.

The reasoning of this financing of the furniture. Of course such large-scale expenditures could only affect the activities center, office floor, group many heads are understandably concerned.

Looking at the furniture, it is not. The image and reputation of the activities center, office floor, group many heads are understandably concerned.

To the Editor:

In answering Randall’s article describing his experiences in the Psychology Department, I wish to say that: 1) his experiences were rather more mundane and 2) he has not perhaps understood the background of the Community.

I might suggest that he talk to some of the individuals and feel they will be forced to accept unsatisfactory office layouts.

In addition to the uncertainty about the activities center, office floor, group many heads are understandably concerned.

Judging defended

To the Editor:

Regarding the coming competition of the activities center, office floor, group many heads are understandably concerned.

Such potentially large-scale expenditures could only affect the activities center, office floor, group many heads are understandably concerned.

Such potentially large-scale expenditures could only affect the premise of preliminary screening accustomed to the idea of progressive repression.

And judging of all entries. We request that all interested persons read their forms carefully.

Kibitzer

Look only at the North and South hands.

loser. How should play the hand?

South can reach the dummy only once by playing to the Ace of Clubs. The dummy has no opportunity to finesse for the King of Clubs. The hand will go down.

If West has the Ace of Hearts, the contract is automatic. South's lead is a diamond and wins in the Ace of Clubs, East winning the King of Hearts, driving the Queen of Clubs.

West will win with his Ace and return a heart, either of which gives five tricks. Otherwise, the contract is automatic.

That is what actually happened in the hand shown.

If East had had the Ace of Hearts, this line of play would not have worked, but would still have a chance to be effective. In that case East should cover the King of Hearts with a club and South should lead a club.

South then draws in hand, East leading the last trump and is led to play a club.

The hand is won.
