By Anthony Peppers

The problems of educated women in our society have been nothing short for the past few years. And, a woman gets married, she can put her knowledge to use. As a result, Dr. Bunting emphasized planning for change. By hastening a change in our society, we may see a rise in the number of people with a combination of several talents, the modern physicist who speaks Chinese into mind. Also, she hopes that a family will be regarded more as a "composite" with the interests of each of its members taken into account.

Dr. Bunting pointed out those people with a sharp focus on, one subject, also were broad-minded in the general sense.

In 1968 the Institute was established. Radcliffe has established an Institute for Independent Study in the general sense. At the same time, the Institute itself has grown in size. The problems of planning for change can be seen as a "composite" with the interests of each of its members taken into account.

Institute for Independent Study

With the above points in mind, Radcliffe has established an Institute for Independent Study which offers assistance to women in the Boston area to do creative and productive work.

By hastening a change in our values and a more understanding outlook, Dr. Bunting believes an individual can go a long way toward realizing the role of educated women in our modern world. By recognizing their intellectual interests, we will give their later years deeper meaning.

Progress in the Bell System...
