Beginning course in modern drama will be offered, starting Tuesday

By Mark Barkman
Gus Solomon, Jr. '60, has been engaged to teach a special course for beginners in modern dance and stage movement at MIT, according to Joseph Everingham, MIT Director of Drama.

The course of twelve classes is to be taught weekly beginning Tuesday, February 18, from 7:30 to 9:00 p.m. in the facing room of the DuPont Athletic Center. It is primarily for and open to all MIT students, but will also be available to all other members of the MIT community.

Mr. Solomon, while in college, was an active member of Drama-Shop and will be remembered in the starring role of Othello in 1960. Earlier, he appeared as Jove in Johnson's "The Alchemist" and in Shaw's "Arms and the Man." He also choreographed and appeared as star, author and leading dancer in four successful Tech Shows during his MIT career.

The fee for the course is $15, which may be paid in advance by check to the Drama Office at Novegic Auditorium, or at the equipment window of DuPont or the evening of the first class. Interested persons are requested to notify the Drama Office in advance.

MIT is reported as major undergraduate source of students who earn graduate science degrees

By Stephen Portrey
From 1955-1962 among all schools MIT was the undergraduate source of the greatest number of students who went on to earn their doctorate in physical science.

This and additional information concerning the production of doctorates and graduates who eventually earn their doctorate has recently been published in a report by the Joint Office or Institutional Research for the Association of State Universities and Land-Grant Colleges.

The report shows that, in general, there is a growing tendency for state and land-grant institutions to grant doctorates and baccalaureates to students going on for their doctorate. MIT, a land-grant institution, figures prominently in the statistics.

Out of the 31 leading doctorate-producing institutions, MIT ranked 16th, granting 456 degrees, from 1955-1959.

Over the period from 1929 to 1959, MIT ranked 16th overall, and in terms of the baccalaureate sources of doctorates it ranked 16th, graduating 1530 students who eventually earned doctorates.

Statistics concerning the second largest sources of doctoral candidates at each of the leading universities were also presented. Although MIT did not appear in this list, Harvard was listed as providing the second largest source of doctoral candidates at MIT.

MIT's strongest position is as a producer of doctorates in physical and biological sciences. In an analysis of the educational background of American Physical Society Fellows in 1962, schools were ranked according to the number of Fellows who received their doctorate there.

MIT ranked second, tied with the University of California at Berkeley and behind the University of Chicago.

Flick starts at Stevens

After a break for finals, the MIT basketball team under Coach Jack Mazola was ready for the game in Hoboken to start their inter- conference trip. Although Flick started in this contest replacing Mazola, who was ill, the game was close until late in the first half when a Tech spurt broke the game open. Flick and Grady Eagleson scored 16 points respectively. In the first half, Tech won, 30-17, leading 17 points, the game was Eagleson with 23 as all Tech starters bit double digits. Don Baxter was high for Stevens with 17 points.

Grady, Mazola foul out

The first loss of the trip was started when报记者 by N.C.E. Suffering from foul troubles and Nevada's hot hand percentage, MIT trailed 20-14 at the half. Trying to come back, Mazola got to within two points with a minute and a half to play. But the best of backcourt men Grady and Mazola on fouls was too great a hindrance, and N.C.E. won 73-68. High scorers for the game were Eagleson and Grady with 24 and 21 points each. Dick Williams led N.C.E. with 16 points.

MIT routs Brooklyn

Brooklyn Polytech was the final opponent, the MIT cagers faced on their four-day trip. The game proved to be a real test with Tom Tech players seeing action in the game. With the halftime score 47-17 in favor of Tech and the final score 84-51. Scorers in double figures were Eagleson with 21 points and jun, Mazola with 22 points.

Eagleson breaks Koch mark

With the completion of the trip to the Greater New York area, the team is prepared to finish out the season. The big man on the squad is senior co-captain Bill Ricks. Before this trip, he needed 22 points to break Dave Koch's all-time scoring record. Having scored 68 points in the three games this past week Ricks is only eight points of the 100 point mark and above Koch's record total. Bill's 35.8 average of rebounds per game is as valuable an asset as his scoring.

The next home game is Wed-nesday, February 24th against Bowdoin. Game time is 8:15 p.m. at Rockefeller Cage.
