Bishop new Dean of Humanities

Dr. Robert L. Bishop will serve as Acting Dean of the School of Humanities and Social Sciences, replacing Dean John E. hamburger, who will retire in June.

Professor Bishop is currently head of the Department of Economics and Social Science. He will maintain the position while serving as Acting Dean. Dr. Bishop has accepted the appointment with the understanding that a permanent Dean will be appointed next year.

Bishop resigned policy.

Dr. Bishop hopes to return to his work in economics as soon as possible and said, "I'm inclined to think that there will be little change in policy (in the School of Humanities and Social Sciences)."

Professor Bishop came to MIT in 1962. He was appointed Associate Professor of Economics in 1964, Associate Professor in 1969, and Professor in 1971. He has been head of the Department of Economics and Social Science since 1985.

Most recently, Professor Bishop's work has been in the field of game theory as applied to problems of economic bargaining.

Core development

Ruling for Forrester

By Mark Rockman

Legal fiction among MIT, the Radio Corporation of America, and International Business Machines Corporation is now the responsibility of Professor Jay W. Forrester's Information Processing and Control Systems Laboratory.

The core development of the digital core memory was ended recently in a $2.5 million award to MIT in the United States Court of New York.

The history of the memory system dates back to 1960, when the first digital computer was built in the laboratory. The Laboratory developed the first high-speed electronic digital computer, and the core was intended to extend applications to actual engineers, and experiments for the processing of all defense information.

Memory changes

By 1964 it was apparent that the internal memory, in which commands for the complex computer operations are stored, was hindering the computer's functioning. MIT's new memory tubes had been found too slow or too expensive. The necessary reliability to satisfy the rigorous requirements of the application.

Registration material available for Summer Session next Monday

Registration material for the 1964 summer session is available Monday, April 27, at the Information Office.
