Pyramid Protection Plan provides such amazing family coverage that many prospects feel it is almost too good to be true. But the figures in the chart illustrate, as they will at your age, that anyone who needs life insurance should investigate SBLI. The modest premium will never increase—but the total insurance coverage pyramids during the years your family needs it most. At age 65 premium payments stop forever, but the insurance continues all your life.

For facts and figures at your exact age just telephone UN 4-5271 or come in and see us. We will gladly answer any questions you may have.

Pyramid Your Life Insurance
