Metallurgy Department of offer
two series of colloquia this fall

The Metallurgy Department will sponsor a series of colloquia in modern research techniques beginning October 6. The colloquia, given at 4:00 each Tuesday, will begin next Tuesday with a lecture by Prof. R. Warren on "Disorder and Impedances in Alloys at X-Ray." The series will be given in Room 3-100. Beginning with the November 3 lecture, they will be given in Room 2-100. Speakers will include Dr. L. Kaufman of ManLabs, Dr. P. Durnam of Tube Investments Research Laboratories, Dr. D. Pette and Dr. D. Lebed of Bell Telephone Laboratories, Professors of Physical Chemistry of Illinois Institute of Technology, Dr. D. Wells of CBS Laboratories, Dr. D. G. Schuster of IBM Research Labs, Harvard University, Dr. D. K. Wells of United States Steel Corporation, Prof. D. Shull of the Institute.
The series will be interrupted this fall for colloquia given by the November 1 and the Robert S. Williams Lectures, to be given in Room 2-100 on November 3, 4, and 5 by Prof. S. Kirkaldy of McMaster University. All lectures are open to the public.

Friday night

IDC mixer at Walker successful

Technicians practice technique as mixers dominate the fall social scene. Showing distinctly unrobot-like tendencies, tools gather significant data such as name, address and telephone number. Scenes above are from IDC mixer at Walker Memorial last Friday. For information on coming mixers see Cherchez La Femme.

Q. Why give your favorite student a good pen when he'll just lose it?
A. Parker won't let him lose it. If he does, it will be replaced*

* SPECIAL REPLACEMENT OFFER: If you buy your favorite student a Parker 45 (the $5 model) between now and October 17, 1964, he can protect it against loss for one full year at no extra cost. He registers its purchase by mailing one-half of the Parker 45 Registration Certificate to the insurance company listed on the certificate. Then if the pen is lost, the insurance company will replace it at no charge. All he has to do is mail the other half of the certificate, properly notarized before December 31, 1965 and describe how the pen was lost.

Here's why this is such a good pen for a student:
IT'S CONVERTIBLE. Load it with a cartridge or replace the cartridge with the ingenious little "converter" (95 cents extra) and fill it from an ink bottle. The 45 is the only pen that fills two ways.

PARKER 45, solid-gold "GOOD POINT." Choice of seven widths from extra-fine to extra-broad. And we can replace points right on the spot.

NOW...you can step into the easy-care world of man-made materials!

**29.95 to 59.50

NOW 29.50
